

To all contact lens patients:

A Contact Lens fitting or prescription is not part of a routine eye exam. Medical insurance does not cover fitting, testing or prescriptions for contact lenses.

Our charge for this service is \$99 to \$250 depending on the complexity of your case. A fee will be charged annually even if you have been fit for contact lenses in prior years at our office, or any other office. This fee is in addition to any fees for a routine eye exam or any visits for eye disease.

If you have a vision plan that covers routine eye care and eyewear, there may be a discount or allowance for contact lens services or materials. Please refer to your plan brochure or ask our front desk staff about it.

Your Contact Lens Evaluation Includes:

History and Medical/Visual Need

- Patient visual needs analysis
- Prescription considerations
- Medical considerations/contraindications for wear
- Allergy evaluation for contact lens material compatibility
- Recommendations for proper ultraviolet protection

Clinical Examination

- Visual acuity measurement
- Corneal curvature for proper contact lens design
- Corneal integrity
- Corneal sensitivity
- Eye aperture size measurements
- Eyelid evaluation
- Biomicroscopic evaluation of proper contact lens positioning and movement
- Tear flow analysis as it relates to quality and quantity of tears
- Tear film analysis as it relates to contact lens comfort
- Vertex distance conversions
- Diagnostic contact lens selection
- Contact lens application

Emergency and Follow Up Care

- Answers to your contact lens related questions in office or by phone
- Advice on how to identify a contact lens emergency
- Providing you access to emergency care from our office after hours

Progress Evaluations

- Instruction on timely lens disposal and return visit reminders
- Periodic evaluation of your current backup spectacles
- Progress evaluations as required to check for healthy contact lens wear

Patient Instructions

- Instruction on proper cleaning, storage, and disinfection of contact lenses
- Techniques and tips on application and removal of contact lenses
- Instruction on contact lens care and handling
- Advice regarding use of makeup and/or other cosmetics with contact lenses
- Information regarding the use of contact lenses for sports
- Precautions regarding contact lenses and swimming

Is that all ?!

- As you can see, there's a lot that goes into a complete contact lens exam
- And because the long term health of your eyes is our primary concern, we wanted to show you exactly what an evaluation entails
- We look forward to continually providing you the highest level of contact lens services
- Thank you for trusting us with your most precious gift, the gift of sight

100% Patient Satisfaction
